

FOCUS_{FOCUS}_{FOCUS}

Top Ten Signs You've Been in the Environmental Field Too Long

10. You know that HazWoper is not a candy
9. You pass a vac truck on the highway and beep because you know the driver
8. You know that a “split spoon” is not an eating utensil
7. You play “placard bingo” with your kids on long trips
6. You can't pass a hill without looking for monitoring wells and methane risers
5. You begin to speak in acronyms at home
4. You talk openly about your experiences with LUST
3. You know “cradle to grave liability” applies to more than taxes
2. You know that Tyvek is not a character on *Star Trek*
1. You know “gas freeing” does not involve removing beans from your diet

Presentation to

Energy Conservation and Environmental Initiatives Forum

April 26, 2010

Brett Robinson
Industrial Sales Manager

Our Approach To Sustainability and Energy Conservation...

Used Oils

become fuel

Spent Filters

become

Used Antifreeze

becomes

FCC Environmental Hydrocarbon Recovery Services, Inc.

**Returning Oils, Fuels, and Antifreeze
to commerce for nearly 20 years**

Key Facts About FCC

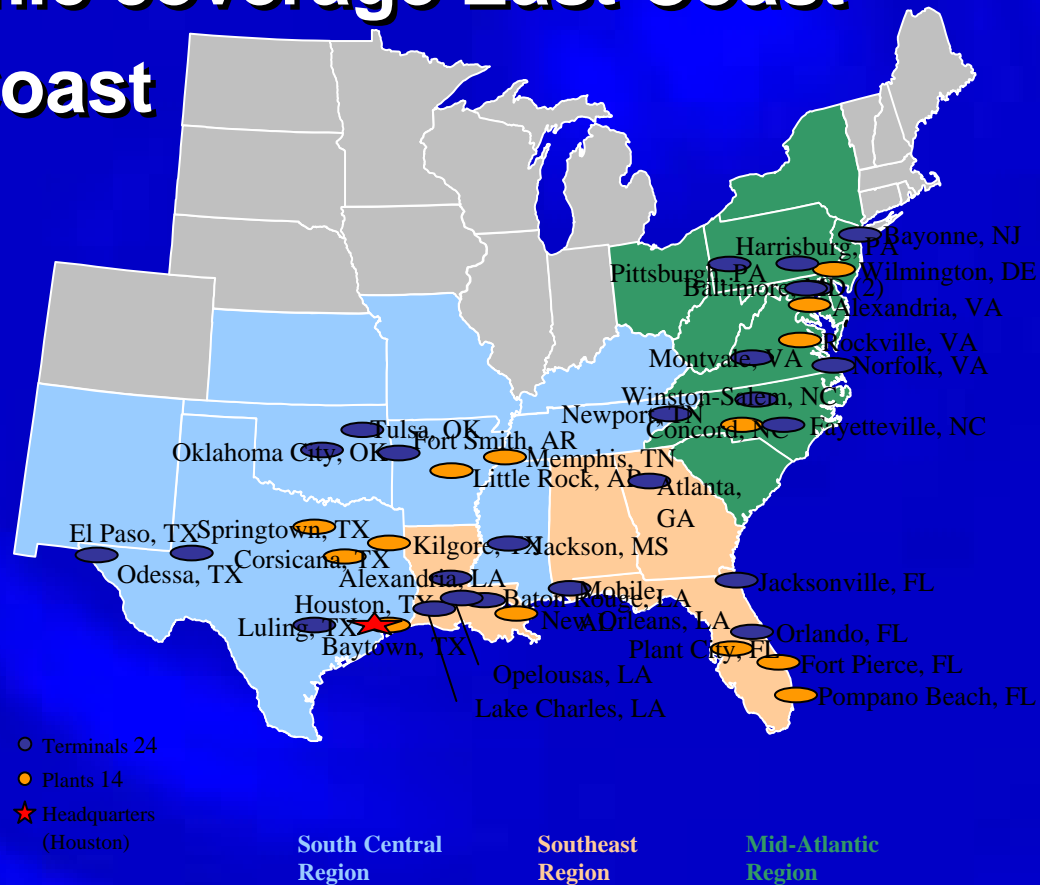

- Formerly Siemens/USFilter
- Now part of Spain-based

Fomento de Construcciones y Contratas, S.A., an \$18 billion company involved in cement, waste management, remediations, treatment system design and O&M, construction, real estate, energy

Key Facts About FCC

■ Geographic coverage East Coast to Gulf Coast

Key Facts About FCC

■ Recycle Oils and Fuels

- Over 90 million gallons per year of spent lubricants re-refined into on-spec fuel oil
- On-Spec Fuel Oil sold to asphalt manufacturers, paper mill operations, phosphate mining market, and fuel blenders
- Reclaim over 2.5 million gallons per year of gasoline, diesel, kerosene, and aviation fuel
- Low flash recovered fuels sold to power plants or burned on site to provide energy for all recycling processes

Key Facts About *FCC*

- **Recycle Antifreeze Mixtures**
 - **Over 2 million gallons of spent antifreeze recycled each year into “SureTemp” antifreeze**

- **Recycle over 65 million gallons per year of oily water**
- **Recycle over 30 million oil filters per year**
- **Over 40,000 customers (gas stations to manufacturers, public utilities to military bases)**

Who is *FCC* in Florida?

Local Recovery Facilities:

Plant City/Tampa, Pompano

Transfer Facilities:

Orlando, Ft. Pierce, Jacksonville

Top Ten Customer List

- 1.) **Exxon Mobil** – Tank Cleanings/Stations/Tanks/Disposal
- 2.) **Shell Oil** – Tank Cleanings/Stations/Tanks/Disposal
- 3.) **Florida Power & Light** – Transformer Oil
- 4.) **Jiffy Lube LLC** – Recycled Oil
- 5.) **British Petroleum** – Station Remediation, Tank Maintenance
- 6.) **International Paper** – Recycled Fuel
- 7.) **US Coast Guard** – Ship Remediation, Bidge Water
- 8.) **Titan America** – Haz disposal, Vac Services
- 9.) **Tropicana** – Vac Truck Services, Tank Cleanings
- 10.) **TECO** – Recycled Fuel, Tank Cleanings, Oily Water

What are our Core Businesses?

- **RCRA-excluded recycling of:**
 - **Oils (petroleum and synthetic)**
 - **Gasoline and Aviation fuels**
 - **Oily and Gassy Waters**
 - **Antifreeze (ethylene & propylene glycols)**
 - **Used oil filters**
 - **FCC-supplied parts washer fluids**

What are our Core Businesses? (cont'd)

- **Field Services related to petroleum management**
 - **Cleaning of tanks, separators, sumps**
 - **Well pumping vac events**
 - **Vacuum Truck Services (dry & wet)**
 - **Sewer Jetrodding**
 - **Coast Guard-certified over-the-water transfers of slops/bilge water**

What are our Core Businesses? (cont'd)

- Field Services involving toxics, acids/bases, flammables, etc.
- Hazardous & Universal Waste Recycling/Disposal

We cover your area with recycling services...

- Florida
- Gulf Coast
- East Coast

Recyclable materials accepted from anywhere!

Why consider *FCC* services?

- RCRA exclusions available for contaminated groundwater, low-flash fuels, and TCLP oils
—***No EPA ID# required, No manifesting!***
- Innovative approaches to pricing
 - **Unique pricing tiers for oils and fuels**
 - **No approval or acceptance fees**
- Fast approvals, often without samples
- Flexibility in management
 - **Trucks to cover 50 gallon to 6,000 gallon loads**
 - **Few limitations on hydrocarbons, water, and solids**

Why consider *FCC* services? (cont'd)

- Used by major corporations & US Gov't

Opportunities to make a difference with **FCC**

- We buy unwanted virgin oils/fuels and used oils with minor contamination

- We fit your Pollution Prevention and risk management needs with in house services

Opportunities to make a difference with *FCC*

- **Local FCC Field Services creates a true turnkey service – *no more finger pointing between contractor and off-site facility!***

Opportunities to make a difference with *FCC*

- **Recycling fuels of all types, turbine lubricating oils, hydraulic oils, drip gases, non-TSCA transformer oils, compressor oils, contaminated groundwater, tank/separator cleaning sludges, etc.**
- **Quick response with weekly milkrun drum pickups, drum and tank pump outs**

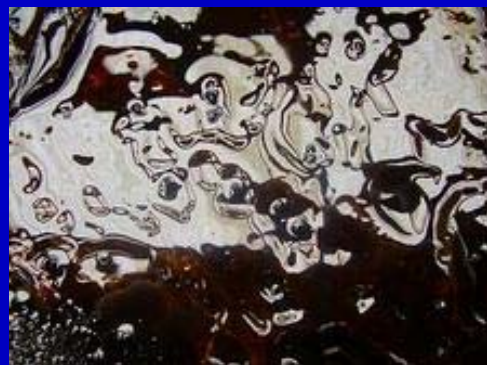

Opportunities to make a difference with *FCC*

**“Damage Free” Digging/Hydro-Excavation
around pipes, conduits, obstacles...**

If you have this...

If you have this...

If you have this...

If you want to be a hero...

FCC Environmental

**Positive reputation built on good facilities
and hard working, knowledgeable people
who won't let you down!**
