

EMPLOYMENT OPPORTUNITY

POSITION: Systems Analyst – ECM/EAI

DEPARTMENT: Information Technology

MINIMUM REQUIREMENTS:

Bachelor degree in Information Technology or related field and five (5) years directly related practical experience or an equivalent combination of education, training and experience. Requires specialization in systems analysis, design, development, testing and system integrations in a medium to large corporate enterprise environment.

Should have proven experience in the following: DF Diagrams, ER Diagrams, Class Diagrams, Data Modeling, Process Modeling, programming in a multi-tier environment, OO Analysis, Design, .NET, MS T-Server, Oracle PL/SQL, Java, XML as well as BEPL, workflow development tools and system administration of Windows Server and Linux.

Must have proven past experience in implementation of and post-implementation support of one or more of the following programs; Enterprise Content Management (ECM), Oracle SOA Suite or comparable middleware and enterprise service bus, web content/portal management, and Maximo Enterprise Asset Management (EAM). Demonstrated ability to translate user needs into a working system. Self-motivated individual who can perform with minimal direction, using sound judgment and creativity in solving highly complex technical and business process problems. Advises and makes recommendations to managers and employees at all levels. Excellent verbal, written and documentation skills. Able to work effectively in a highly stressful environment with deadlines and shifting priorities.

Responsibilities include the following for a diverse number of enterprise business and airport operational systems: needs assessment, system design and development, system administration, programming, integration, project management, and documentation. Program lead and sponsor for enterprise content management propagation and applications integration initiatives.
