FOR IMMEDIATE RELEASE

CARIBBEAN AIRLINES SET TO OPERATE FROM ORLANDO THIS SUMMER!

15 April 2011, Piarco, Trinidad and Tobago, W.I. – This summer, Caribbean Airlines will be operating a special service from a third Florida destination. In addition to Ft. Lauderdale and Miami, customers can book flights for the months of July and August to get to the Caribbean via MCO International Airport in Orlando, Florida.

The Caribbean Airlines summer service from Orlando, Florida will operate twice weekly (Tuesdays and Fridays) from Orlando's MCO International Airport for the months of July and August. In addition to this direct service, passengers have the option of purchasing all-inclusive packages to customize their own Disney vacation on the Caribbean Airlines website (www.caribbean-airlines.com). "We are excited about presenting our customers with yet another option when they are planning for that very special family vacation," stated Laura Asbjornsen, Caribbean Airlines Head of Corporate Communications. "Caribbean holiday makers can now connect to Piarco International Airport from the other Caribbean islands we service, and get directly to Orlando. In addition to the well known Orlando attractions such as Walt Disney World, shopping trips are becoming more and more common. It's more affordable than ever to make a quick weekend trip in Ft. Lauderdale or Miami or to take advantage of our convenient schedule and spend a couple more days in Orlando," explained the Corporate Communications Head.

Known for its all-inclusive product, Caribbean Airlines continues to offer a generous luggage policy of two bags at 50 lbs for its economy passengers with meals and in-flight entertainment on North American flights. "On a trip like this, families deserve to have a very special experience from the minute they check in until they land. No one wants surprises at the check-in counter and the airline of the Caribbean – Caribbean Airlines - is well known for its on-time-performance and exceedingly good value for money," noted Asbjornsen.

While Orlando is well known as the home of Walt Disney World, the city boasts of excellent outlet shopping centres which are open long hours, seven days a week. Airfares to Orlando are available for sale on www.caribbean-airlines.com or at the nearest travel agent. Customers can follow the Caribbean Airlines Orlando campaign on Twitter at www.twitter.com/cal2007 and become a fan on Facebook at www.facebook.com/caribbeanairlines
